BLESSED is this country compared with all others. Secretary Mellon, reporting to Congress, says there is no ebb in our high wave of prosperity.

The nation's income is at a record level. Spending increases, also savings accounts, life insurance writing and purchases of sound investment securities by small investors—all as it should be.

"WE HAVE worked hard, and we have progressed," Mr. Mellon says, reporting the national debt reduced by more than five billion eight hundred millions of dollars.

Mr. Mellon works hard, and

NICHOLS OUSTS HECHT, CHAIRMAN OF BOSTON POOR RELIEF BOARD

Mayor Nichols today "fired" Chairman Simon E. Hecht from the Board of Overseers of the Public Welfare after a bitter clash with Hecht over the telephone about statements made by the chairman that placed the blame on the Mayor for the cut of \$1 in allowances to the city's poor families.

"Did you make the statements credited to you in the newspapers?" the Mayor asked the chairman, a veteran of 17 years of service in the unpaid post of overseer.

"I did," Hecht is said to have replied.

"Then I must ask you to resign," the Mayor said.

Telling Chairman Hecht that he did not think it necessary to put it in writing the Mayor left the telephone and promptly removed Hecht

from office, notifying the city clerk and the Civil Service Commission that he had been done.

The telephone quarrel, as revealed by Mayor Nichols in a public statement announcing Hecht's removal, evidenced the bitter feeling ever-existent between the Mayor and the

EVERETT ROCKED BY EXPLOSIONS; 3 HURT

With a roar that was heard ten miles away, waste gas exploded today in a sewer at the Beacon Oil Company plant in Everett, blowing the roof off the powerhouse, wrecking the property to the extent of \$30,000 and causing a fire that threatened to spread to the huge gasoline-storage tanks.

Terrified Everett residents, awakened from sleep by the roar and tremor of the blast, hurriedly dressed in fright as a second explosion followed the first.

Eight workmen, fleeing for their lives, narrowly escaped injury. One man was hurled to the ground, another was cut by flying glass and a policeman was knocked from his feet as he walked his route a quarter of a mile away.

As far away as Winchester the shock was felt, while in Malden, Medford and Melrose houses were rocked as if by an earthquake.

Officials of the Beacon Oil Company said that the explosion was

STRIKING IRON WORKERS IN BATTLE WITH GUARDS AT BRIDGEWATER PLANT

East Bridgewater, Dec. 10.—More than a dozen men were injured, three of them seriously, in a strike riot at the gates of the Old Colony Iron Company today.

A crowd of 40 striking employees of the plant, the police claim, charged down on a group of men and guards as the latter were entering the plant and for more than an hour the fighting was furious.

Warrants are now in the hands of Chief of Police Everett T. Russell for three of the alleged leaders of the strikers, while the chief has additional summonses for twelve men charged with disturbing the peace.

Meanwhile, Chief of Police Russell, who had taken over the guarding of the plant and the protection of the strike breakers, has called on the state police to aid in preventing further rioting. This request is before

Pearl Harbor, Hawaii, on storage project in 1921.

Asked what other loans he had made, he said he loaned Fall \$10,000 just before he came to Washington for the trial.

Later Justice Heeding sustained defense counsel by ruling that any questions about loans beyond the \$100,000 and the \$5000 should be based from the record of Fall being a co-defendant of Doheny in the trial.

Doheny also disclosed he had loaned the three-year government of Mexico \$100,000 in the form of advance taxes on Pan-American Mex. gas properties.

Secretary Wilbur of the Navy Department was called to the witness stand today. He was summoned by the defense, which sought to show that a "war active" toward the Pacific when Edward L. Doheny consented to build a fuel storage base at Pearl Harbor, Hawaii.

Fall acted as agent for Pan-American into Mexico in arranging this \$100,000 loan, he said. He left the cabinet, Doheny said.

He could not fix the date, but he recalled "in saved the situation in Mexico, much to the disgust of many Americans."

Doheny said that Fall was not in his employ, but that his advice merely had been sought in connection with the Oregon loan. The money was used for rehabilitation of the Mexican army's anti-revolutionary maneuvers.

Owen J. Roberts, special government counsel, was cross-examined. He said on the Elks Hill Naval Reserve with the idea of profit.

Q—Didn't it occur to you that question might arise from loaning an official of the treasury to purchase a large sum of money? A—No.

Q—Was there any reason why you shouldn't have told anyone about the transaction? A—No.

Q—Well, why did you send the money in cash? A—Because Mr. Fall wanted it that way.

Q—You couldn't have cashed a check in a Washington bank, can you? A—No.

Q—Did you make any record of the transaction in your books? A—Only as it is recorded in the bank books.

Q—You commented Roberts, but that is all in your own name. He drew the money from his own account.

SITUATION SAFE DEPOSIT.

Q—Why did you carry Mr. Fall's note around in your wallet, haven't you a safe deposit box in New York? A—I never in my life have looked with a deposit box.

Q—Did you make the note a demand note which could be collected at any time? You weren't in a hurry for payment; you could have made it two or three or more years? A—I made it a demand note so if anything happened to me strangers could receive the money on my account.

Roberts then quizzed Doheny about the 31 shares of ranch stock Fall gave the oil operator in 1925 as security on the 1921 loan. He developed the ranch was capitalized at \$500,000, divided into 100 shares. Fall Doheny held as security stock valued at only \$3,300. It had been stated

DOG WARS 16 FAMILIES SOUTH END

Quick work by the policeman, who sounded an alarm and escorted tenants to the street, and by firemen prevented great damage. The fire, police said, started in a hall closet in the Britton flat, probably from spontaneous combustion. It worked upward slowly, sending dense billows of smoke into the upper part of the building.

Colonel, aroused from his "bed" in the kitchen, discovered the flames. He began to bark. Mrs. Britton, unaware of danger, shouted to him to stop. But the order failed to still the dog. Several times, Mrs. Britton

"Although he refused to discuss the reasons in detail, the Court unanimously was outraged that they were being circumscribed. He stomped up and down in his room at the Hotel Grandeur, muttering, 'This is terrible, terrible!'"

"Why make stories make people think I am a gold-digger," he went on.

"I want my best, not gold, and that is all I can say: that. It is too horrible."

RARE ANTIQUES LOST IN FIRE

Amherst, Me., Dec. 10 (A.P.)—Priceless antiques in furniture, rugs and books were rescued late last night when Amherst College students formed a line and passed articles from one to another as fire destroyed the James H. H. House, located in the old Amherst Hotel. Efforts to rescue furniture, sweeping tapestries on the third and fourth floors, were made late in the evening. The total loss was estimated at \$100,000. Help was summoned from Newington and other towns when nearby buildings were threatened.

Remember We Are Upstairs—Elevator Service

News of the accidental death of his brother by shooting, early today in Providence, saved David H. Abbott, Taunton bus driver, from a commitment to jail in Federal District Court, after Judge Ellis H. Bennett had found him guilty of contempt.

Abbott was on the stand testifying in his own defense against the charge of contempt brought by the Eastern Massachusetts Railway, whose he was called to the telephone in the office of the U. S. Marshal and informed of the Providence tragedy.

An injunction restraining Abbott from operating his passenger buses in intrastate traffic was granted to the street railway company last Spring and it was several violations of that order, as testified to in court, that resulted in the finding of guilt.

Judge Brewster, having heard of additional violations of the injunction since the contempt hearing was begun two weeks ago, indicated that he would impose a jail sentence on Abbott, Dec. 20.

The defendant admitted that since the injunction had been issued against him he had continued to carry pupils to and from the Bridgewater Norman School in the belief that because their transportation was a yearly contract, he was not amenable to the order of restraint.

Judge Brewster disagreed with that opinion and was on the point of sending Abbott to jail forthwith when the defendant returned with the message of his brother's death, which he communicated to the judge, resulting in the respite from commitment.

DEATH TAKES SECOND
MILLBURY AUTO VICTIM
 Worcester, Dec. 10—Death today claimed the second victim of last week's motor tragedy in Millbury, when Mrs. Irene Mayhew Dunn, 25, died at St. Vincent Hospital after being unconscious for seven days with a fractured skull.

Her death followed that of 10-year-old Hudson Lynch, who died soon after the accident. Mrs. Dunn, the boy and two others were moved down by an automobile, said by police to have been driven by George W. Rice, Millbury businessman, who is waiting trial on several charges. Mrs. Dunn leaves a husband and one child. The others injured in the accident are reported recovering.

That can be read between the lines of remarks the silver-haired

haven't the argumentative wit to match with

the birds who own the clubs. But the Judge

has grown to be one of the fixtures of the game. He stepped in

when the "ambassadors" nearly ruined the baseball structure, and

he furnished a new foundation of confidence. If he goes, the

confidence goes with him. Baseball knows it cannot afford to

let him go.

The Judge, it is said, is a collector, at times. Now and again

he spreads the banana oil, as the boys say. He knows the value of

the sport. He has a big job, but he isn't making it

Boston Evening American to Print Story of Jack Sharkey's Career

JACK SHARKEY, former Boston heavyweight who has been signed by the Boston Evening American to write the story of his career, is not resting. He is working on the story of his career, and the Boston Evening American is printing it.

It reads like fiction. Not even the life of Turley can surpass this saga of Sharkey's for HUMAN APPEAL, BATTLING AGAINST ODDS, and FIXEDNESS OF PURPOSE. Jack tells of the course of his ambition from boyhood days, through his service in the Navy, to his spectacular rise to fame, which culminated in his summary disposition of the Benighted Thug—Harry Wills.

"Compactness with simplicity of operation." The ability to make powerful radio sets in compact cabinets is now a well-established fact. The Model 20 Compact is a concrete example of this statement. It is not, however, a statement to be constrained by the fact that it is very simple for a child to tune in stations after a fashion. It is simple to use while at the same time it brings unnecessary to look at the dial. The tuning has been sacrificed to give the utmost simplicity of operation and smallness in size. The present model is a more powerful, more selective unit than any other portable radio in any of the previous models.

The designing of these made it possible to make a radio that has many engineers who have at the command the fact of a complete.

MORE CLOSER BROADCASTS

The Victor Talking Machine Company will announce another series of broadcast programs to be given world famous artists the next two weeks. The first of the 20 years ago, Jan. 1, 1910, it is announced at the National Recording Company, 245 N. 2nd St., a wide facilities for the broadcast.

The opening program will be broadcast on the radio from 8 to 10 p. m. New York time and broadcast simultaneously through many of the general stations of the WEA and WIZ in New York City. Announcement of the artists and participants will be made with the first broadcast was read.

At the present time the Awtalawit Company's Manufacturing Company is manufacturing window shades in Philadelphia. Twelve acres of floor space are being used for the production of window shades. It is estimated that the company will be able to increase its production of window shades to 100,000 per year. The plant, which is situated in the city of Philadelphia, is the most modern in the world for the production of window shades. The construction of the plant was completed in 1920 and it is now being used for the production of window shades.

top. Each new development must pass through a series of exhaustive tests before it is turned over to the general public. The new technology is grown in quantities and put on pedestal.

The most significant work today in radio is done by Volume One, which means the truthfulness of the sound and microphone at the studio are recreated in your home.

Volume in a radio receiving set is how loud the sound is. It is capable of transforming the broadcast it receives from near an amplifier to a speaker. The volume of Kent radio receivers have ample power to operate one or more loudspeakers under all conditions. The volume of the sound is at the speaker. However, volume is not attained at the expense of the reproduction of the sound. The reproduction is the ultimate desired at all times.

The volume of radio receiving set is sufficient to give you the same

The opening Victor program as inaugurates a new chain of stations operated by the National Broadcasting Company with WJZ as the "key" station. The WJZ will be known as the "Big Brother" and will also carry "America's Best Music" WJZ through 67. Stations in the Boston, WDAF, Providence and NJW, Chicago. For the broadcasting of the first Victor program, the "Big Brother" will be joined with "Red Network" and WJZ. WEAF chain is known, as well as other stations throughout the country.

The cabinets are built of solid mahogany in a small workshop in the basement of the factory. The drawers, handles and knobs are cast in the extra lathe separate and are the work of the instrument maker. The instrument is a masterpiece of scientific manufacture.

The distinct department exists for the manufacture of bakelite mouldings—w.e.e. dials, knobs, etc., are turned out on precision machines. The work is done by men who estimate that one out of every ten attempts is an inspector in this mode of work. The mouldings are subjected to about 15 tests before they are shipped from the factory.

To such work the finding of the assassin was a matter of time. He has been the strongest labor leader in the police of the most recent years.

Very prominent among the most reputable of these manufacturers was the name "Atwater Kent." The name was a name of honor.

sound from distant broadcast stations, but they are not selective enough to filter out the signals from stations both broadcasting at the same time on waves of nearly the same length.

By using "selectivity" of all water Kent receiving sets it does not only to the extreme accuracy of the tuning, but also to the accuracy of their manufacture. This is particularly true of the One Dial Receiver.

By using the selective receiving set taken from our regular stocks has repeatedly enabled their users to receive the signals of the broadcasting station. The water Kent Manufacturing Company have discovered the importance to sell their sets to the public. Their presence has been that their reception presents a unique combination of selectivity, accuracy and range. These sets are distributed in Boston by Howe & Company, located at 100 State Street. The company's successful season is reported by

MORE VICTORY BROADCASTS

The Victor Talking Machine Company will sponsor another series of "Victor Promotions" to give the world famous Victor records a new twist in the tradition of 20 years ago. Jan. 1, 1930, it was announced by the National Broadcasting Company, Inc., that Victor will, for the broadcast season, be the only record company to participate in the "Victor Promotions." The changing program will be two hours duration, from 7 to 9 p. m. New York time and broadcast simultaneously through most of the country on stations WJZ and WEAF in New York City. Announcement of the artists to participate will be made within the coming week. It was said.

The opening Victor program will inaugurate the broadcast season being sponsored by the National Broadcasting Company with WJZ as the "key" station. The chain will

MEDITATIONS OF A WIFE--BY HELEN ROWLAND

By HELEN ROWLAND
My are beginning to tire of the "hard-boiled" girl.

They complain that she is cold, unsympathetic, unappealing, unfeeling! That she has lost all her

sweet clinging femininity, and out off most of her charm with her hair and her skirts.

Right, dear boy! But WHO was it that used to complain of woman's super-emotionalism, her sensitive nerves, her temperamentalism?

Colds Ended In a day

Colds can be ended in 24 hours. They can be checked before they develop if you have the right help at hand.

The modern girl doesn't fascinate a man as her mother did—but neither does she bore him as much.

She hasn't the soft little coquetry that caught his heart and clung around it like a moth—but neither has she the single-mindedness of the heart out of him.

She never weeps on his out-lapel.

NEW YORK CITY is putting up so many tall structures that the tenants of the top floors of some of the office buildings are only two blocks from heaven.

ONE of the apartment houses is so high that it makes the Woolworth building look like a tent.

A MAN who commutes by the roof and gets to Paradise before his baggage.

THIS people on the top floor are only home on Mondays, Wednesdays and Fridays. They spend the rest of the week in the elevator.

ONE man said he paid his rent the other evening and by the time he got upstairs he was behind again.

HIS father-in-law fell out of the window day before yesterday and hasn't reached the street yet.

HIS passed the middle of the bull on the ground until tomorrow morning.

THIS Junior said he wasn't falling very fast and might be late.

HIS wife said it wasn't the first time he'd kept her waiting.

MANY MEN HAVE CONSTANT COUGH
Caused by Catarrhal, Asthma or Bronchial Trouble and Smoking
SIMPLE HOME REMEDY SOON STOPS THE COUGH
Sore throat can smother constantly and never cough but let them catch a deep-seated cold and get a touch of the system or worse will be impossible to take. Coughing is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, eucalyptol is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Eucalyptol contains, in addition to eucalyptol, other healing elements which soothe and heal the irritation and inflammation, while the eucalyptol goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germ.

It is the treatment of persistent coughs and colds, bronchitis, asthma, bronchitis and other forms of respiratory diseases and is a reliable remedy for the system after colds or flu. Money returned if any cough or cold is not relieved after taking according to directions. Ask your druggist.

Improper Questions. You Get In Wrong!

It simply won't do. You make yourself unpopular. That is my experience. You insist, if you say to a lady, "Did you not sing in the chorus of the Peasie Jubilee in 1874?" or "Pardon me, how old were you at the close of the Civil War?" Or, if you say to a man, "How well you are looking since prohibition came in!"

It is not improper for us to say that we are in the Piano business and have just what you want. We want to be popular with those who have dealt with us. Why? Because we always aim to make good with every customer. Come and see us at once, about that new piano for Christmas. We have placed 8 or 10 away or slightly used. Fine pianos at the bargain counter, 40 per cent. discount. Excellent Grand pianos for \$525.00. Fine new Uprights for \$350.00. Come in for a convenient monthly payment.
